

ARNOLD® Shelter for Wireless Wheel Chock

QUALITYLINE

part number: 706160000

Technical data

Dach:

- Material: PVC
- Width: 420 mm
- Length: 420 mm
- Thickness: 3 mm

Befestigungswinkel:

- Material: Aluminium
- Width: 420 mm
- Side Length: 40 mm
- Thickness: 2 mm to 3 mm

Features

This small canopy made of transverse stable PVC is mounted as shelter right above the wall holder of the wireless wheel chock.

This way it does not only protect the optical off-position sensor from direct sun light and heavy rain fall - it also keeps the chock free from snow thus making handling the chock in winter more comfortable.
